

## **A Man From Wisconsin's Story**

**A man from Wisconsin shared this story of alien abduction refusal. The following is his account in his own words:**

“After UFO DAZE in ‘97 or ‘98 I went to bed, this was like on a Thursday after that about 2:30 in the morning. And if this was a dream or not it was sure real, because I was in this room and it had no corners. It was very... It was round, no corners at all in it and... It was white and it was like a bed that they have at the doctors office where it holds the feet up and you lay on there. And that’s what I was sitting on.

I don’t recall seeing anybody there. But they wanted to do something to me and I said, “in the name of Jesus Christ you put me back.” And instantly, I went out of there, thru the window of my house into the bed. And I came in so fast I thought I had smacked my head on the bed board. I jumped out of bed and I went and looked out the window. What in the world was going on? And I couldn’t see anything. So I got to, got back to bed, and I heard a whirling sound. Now if that was a dream, it was the wildest dream I ever had.”
